TOUCH POS SYSTEM SP-3500

POS THAT EXCEEDS EXPECTATIONS

Perfect for the stylish and high-end store, the SP-3500 has the modern, attractive aesthetic your POS hardware solution requires. Partner Tech is known for modular designs and an impressive line of peripherals that provide retailers and restaurateurs with the tools they need to provide great customer experiences – and the SP-3500 delivers. It has been developed to optimize staff workflow at the checkout, increasing checkout speed, and boosting customer satisfaction. You can choose to add peripherals such as encrypted magnetic stripe reader, biometric reader, smart card reader, RFID reader, 2D scanner, camera and wireless module to engineer the perfect customer experiences.

Base Options: Flat, Folded or Completely Extended
Counter space at the checkout is always a premium, with the space coveted for POS displays and impulse buys. Partner Tech has revolutionized the SP-3500's base's design so it is foldable and space-conserving. The base is also adjustable from completely flat to fully extended for comfort and maximum screen visibility.

High Visibility LCD Touchscreens
Touchscreen visibility and sensitivity is tied to accurate data entry. The bezel-free design ensures you see the largest display possible to keep the work flow moving with minimal disruptions and PCT technology allows your staff to use the touchscreen with ease.
Choose between a 15.6″ and 11.6″ LCD touchscreen to optimally display your POS software interface. Both are constructed for durability and to withstand spills or impacts that sometimes occur in commercial environments.

SPECIAL FEATURES

- Foldable design with different monitor selection 15.6″ or 11.6″
- Projected Capacitive Touch (PCT)
- Supports up to 8GB RAM
- Wide range of interfaces, incl. USB 3.0
- 2nd monitor support
- Spill and dust resistant front panel, IP 66

OPTIONAL

- Mini PCI-e, e.g. to support WiFi module
- 2nd monitor support (7″, 11.6″ or 15″)
- 3-track MSR, Smart Card reader, NFC / RFID reader, FingerPrint sensor, 2D scanner, Camera (2.0M)
